

Camp Math and Read for Grades 4 & 5

W7 & W8: July 22-August 2

12:30 p.m.-2:00 p.m. Math

2:00 p.m.-3:30 p.m. Reading

Entering grades 4-5

Math: Developing computation skills and understanding basic math processes are the major components of the math program. At the first class meeting, students are tested and a personalized plan is developed for each student. Upon completion, a final report is prepared that includes goals achieved and areas needing further attention. \$230

Instructor: Eliza Spear

Reading: Students learn to be active participants in the reading process while focusing on comprehension and decoding skills. The program includes: vocabulary development; book analysis and discussion; summary writing and main idea identification; conclusion, and inference skills. \$230/each

Instructor: Eliza Spear
