Kids love to dress up and play doctor! At Little Medical School® we encourage children as they explore the exciting and inspiring world of medicine. Using role-playing, interactive demonstrations, crafts, and games, kids learn how the body and organs work, how to use instruments that real doctors use, administer first aid, and more! Each child will receive a medical stethoscope to take home in addition to a disposable white lab coat, multiple models made by the students, and a diploma as a graduate of Little Medical School®. \$250 Instructor: Little Medical School®
