

Balloon Creatures Cost \$120

Week 2: June 15-June 19

Entering Grades: 3 4 5 6

9:00 a.m.-10:30 a.m.

10:30 a.m.-12:00 p.m. Instructor: Austin Harvey

Have you wondered how people make balloon animals? How do they twist them together and when do you stop? How does it end up looking like a dog!? This is the camp for you! We will learn some very basic techniques for balloon twisting, along with a handful of animals or objects that can be modified in simple ways. Students will leave with their own balloon pump and a small pack of balloons to practice with at home. Come have fun making, creating, and building cool 3D animals and objects with balloons!
