

Detective Science Cost: \$200

Week 1: June 8-June 12

Entering Grades: 4 5 6 7

12:30 p.m.-3:30 p.m. Instructor: Shelley DeRock

Come join us for a weeklong mystery extravaganza during which student detectives conduct hands-on forensic science tests on evidence found at the “crime scene.” Students perform tests on clues in the forensic laboratory, including thread comparison tests, chromatography, pH tests, and powder tests. Through observation, experimentation, and discussion, we attempt to solve the mystery of the *Case of Felix*.
