

Junior Scientist: All About Animals Cost: \$260

Week 8: July 27-July 31

Entering Grades: K 1

12:30 p.m.-3:30 p.m. Instructor: Snapology

What makes a bird a bird? How does a caterpillar become a butterfly? Did you know that reptiles are the oldest creatures on the planet? Junior Scientists: All About Animals invites your little zoologists to analyze birds, construct their way through the butterfly life cycle, build reptiles, and examine insects with the K'NEX® Organisms and Life Cycles Kit. Your child will be too busy exploring the animal world to realize that they are gaining critical social and developmental skills.
