

**Space, the Final Frontier Cost: \$275**

**Week 3: June 22-June 26**

**Entering Grades: K 1 2 3 4 5**

**12:30 p.m.-3:30 p.m. Instructor: Science Matters**

**Blast off and reach beyond the sky to explore the Final Frontier on an AMAZING ADVENTURE through SPACE! Build and launch a solid fuel rocket that goes over 100 feet into the stratosphere. (Local restrictions may apply.) We will be visiting Planets in our Solar System as well. Visit the 4th Rock from the Sun...Mars...and design a spaceship capable of landing on the Martian surface. See the Rings of Saturn. To join us in our travels, design your own alien as a traveling companion. Make a comet and play Comet Golf. We'll build a telescope that helps us bring the stars closer to us. Join us and blast off on a fun journey among the stars!**
