

Junior Scientists: All About Animals

W6: July 11-July 15

12:30 p.m.-3:30 p.m. Entering Grades K-1

All About Animals: What makes a bird a bird? How does a caterpillar become a butterfly? Did you know that reptiles are the oldest creatures on the planet? Jr. Scientists: All About Animals invites your little zoologists to analyze birds, construct their way through the butterfly life cycle, build reptiles, and examine insects with the K'NEX® Organisms and Life Cycles™ Kit. Your child will be too busy exploring the animal world to realize that they are gaining critical social and developmental skills. Creature Creator Robotics: In Snapology's Creature Creator Robotics class, your animal lover will create their own animal-inspired robotic models. Students will learn about gear ratio, sensors, simple machines, and programming as they build insects, dolphins, gorillas, and much more. Your child is sure to have a wild time as they build, learn, and play!

Cost: \$285

Instructor: Snapology
