

Slimy Science & More

W6: July 11-July 15

W8: July 25-July 29

9:00 a.m.-12:00 p.m.; 12:30 p.m.-3:30 p.m. Entering Grades K-4

Yes, we still make slime and get messy. But there's more! Let's explore the connection between magnetism and electricity, learn about potential and kinetic energy using roller coaster tracks, and investigate forces and motion. We also go back in time and explore the Geologic Time Scale, create fossils, identify rocks in the rock cycle, and crack open a few geodes. There are also many opportunities to enjoy the outdoors and explore the campus.

Cost: \$260

Instructor: Megan Zitron
